

Denturist / Dental Prosthetist Conference

Hamilton Island, Australia

30th September to 3rd October 2010

The Australian Dental Prosthetists Association Queensland hosts a conference for it's Queensland Membership every second year.

The conference has grown to include members from all across Australia and New Zealand and we now invite the wider community to gather and experience not only great Australian hospitality, a fabulous educational program but also a truly tropical island experience.

Where is Hamilton Island?

Hamilton Island is one of the 74 tropical islands in the Coral Sea, located between the Australian Coast and The Great Barrier Reef.

What will the temperature be?

Hamilton Island lies on the same tropical latitude as Honolulu in the northern hemisphere and Mauritius in the south. It has a year round average temperature of 27.4°.

What can I do there?

Daily tours to the Great Barrier Reef and Whitehaven Beach, sea kayaking, twilight sailing, game fishing, scenic flights, diving, relaxing by the pool, waterskiing...with over 40 different activities you can do everything including nothing at all.

Register your interest
